Famous and Well-Known Marks: An International Analysis uniquely explores the rationale for and implementation of the protection of these exceptional trademarks. This benchmark work, available online for the first time, is an invaluable guide to the principles and practice of this evolving body of international law. INTA gratefully acknowledges the contributions of this publication's Principal Author and Editor, Frederick W. Mostert, and all of its Contributing Authors.

The Supplemental Resource, accessible through the tab above, is a separate searchable database of marks that have been recognized as famous or well-known by particular jurisdictions.
